CONTINUATION OF
DISPATCH

S E C R E T

GMMA 35074

1. On 15 May 1968 LIFEUD-3, LIFEUD-5, LIFEUD-24, LIFEUD-15 and LIFEAT-3 were granted small salary increases. ALSO, LIFEAT-15 PARTENIER was placed on a monthly salary, which replaced the previous hourly pay rate. Amended Memorandums of Oral Agreements were forwarded to Headquarters.

2. As is normal in this Project, daily operational meetings were held with David A. WILSTEN and LIFEUD-24 in order to pick-up LIFEAT problems and to discuss various operational aspects of the project and the continuation of activities.

BASEHOUSES

3. On 7 April 1968 LIRISK employees started extensive renovations work in the area around LIFEAT Annex 6. Because of this the basehouse was shut down and all of the LIFEAT lines were removed. This renovation work was completed on 21 June and the basehouse was back in operation in early July.

4. LIRISK work in the area around LIFEAT Annex 8 caused the closure of this basehouse from 19 April until early May.

5. In June 1968 the Statron made the decision to close down LIFEAT Annex 5 and move the basehousekeepers, LIFEUD-35 and 36, to another area. The reasons for this decision were two-fold: A) LIFEUD-35 and 36 have four children and Annex 5 was too small for them, and B) the annex needed extensive repairs which the landlord refused to have done because he was planning to sell the building. A new basehouse, Annex 9, was located and Annex 6 was closed on 20 June. The basehousekeepers are now in Annex 9 and target coverage commenced in early July.

6. Paragraphs 7, 8 and 9 explain the reduced coverage provided by LIFEAT during the three month period under review.

SECURITY

7. No known security incidents occurred during this period.

PLANS

8. It presently appears that LIFEUD-5, basehousekeeper, will be transferred by his company to the Guadalajara area. If this occurs, we will accept the resignation of LIFEUD-5 and 15 and close down Annex 5. In view of this Project Officers presently are looking for replacements and Operational Approvals will be requested as soon as suitable candidates are located.

MEMORANDUM FOR: DDP/APS

VIA: WH/LOG

SUBJECT: Project LIFEAT - Request for Increase
in Transportation Vehicle Allowance (TVA)

1. It is requested that the TVA for Project LIFEAT be increased from six to eight to cover the use of two additional cars:

POV of Carol K. ZINSMEISTER (P), translator \$300 per annum

POV of LIFEUD/35, safehousekeeper \$250 a month

2. Funds for the above POV allowances in lieu of reimbursement by the mile are included in the project renewal.

MEMORANDUM FOR: CI/OA

ATTENTION: [REDACTED]

SUBJECT: Amendment of OA for Antonio DOUBLETTE
(201-312729)

REFERENCE: Form 124 dated 22 November 1966

1. In accordance with Reference, Subject was granted an OA on 22 November 1966 to permit the WH/7 [REDACTED] Desk to utilize Subject as a [REDACTED] translator [REDACTED] Subject was recruited in December 1966 and has been performing this function satisfactorily since that time.

2. It is now requested that Subject's OA be amended to permit WH/7 [REDACTED] Desk to utilize his services to translate sensitive [REDACTED] (LIVEAT) from the [REDACTED] languages into English. To date the Mexico City Station has been providing Headquarters with a translation of the [REDACTED] intelligence take, with [REDACTED] Station assisting with translation of the [REDACTED] portions. Recently, however, the [REDACTED] asset departed [REDACTED] and, at present, neither Station has the capability to translate the [REDACTED] portions. Since it is believed that the [REDACTED] portion may contain important operational information from a CI standpoint, the [REDACTED] desk proposes to utilize Subject to fulfill this gap. Subject will be polygraphed before he is given this added task. Your expeditious attention to the above request would be appreciated.

3. If you desire further information, please call [REDACTED] WH/7, [REDACTED] x5595.

FROM Chief of Station, Mexico City SUBJECT: ALTERNATIVE Logistics TVA for Project Agents			
ACTION REQUIRED REFERENCES			

ACTION REQUIRED: Furnish new TVA for LIEPAT Project if necessary.

REFERENCES : A. LIEPAT Project TVA, dated 5 October 1965
B. NTW-13013, dated 23 August 1965
C. NTW-20216, dated 27 May 1965

1. Please furnish this Station with a revised LIEPAT Project TVA with a total of 7 (seven) vehicle authorizations, more than now listed on the TVA, if this increase is deemed necessary for the continuing transportation allowances, all leave reimbursement paid to 6 of the project agents as approved by reference B.

2. Paragraph I. 2) d. of the project renewal request forwarded by reference C included an annual amount of \$500.00 each for the use of LIEPAT-2, LIEPAT-8, and LIEPAT-24 PCV's; \$400.00 each for the use of LIEPAT-5 and LIEPAT-7 PCV's; and \$300.00 per year for leave reimbursement to Carol K. HUNTINGTON. These agents have been paid these amounts over the years in accordance with project approvals. However, in view of the FM-15-3F and FM-23-5 regulation revision in August 1964, which established the requirement for a TVA slot for PCV's used on a continuing basis, the question of the need for a TVA is raised to preclude a possible audit exception.

3. The PCV's are used by the agents in transporting tapes and other material between various operational points. Daily use averages from 20 to 50 miles per day and from 1 to 4 hours per day depending upon the assignment. Use of pooled vehicles is not possible because of the widely separated points of contact, the need for simultaneous use and the impracticability of coordinating the use of pooled vehicles from a cover standpoint. Public transportation is not practical again because of the widely separated points of contact and government transportation cannot be used because of cover.

SECTION 102.

Chief of Justice, Mexico City

1930-1931
1931-1932
1932-1933

Class 11: Writing

an in/registrations Transportation Allowance for Paid/Unpaid.

Reference: A. 111145-5605, 27 September 1965
B. 111145-45913

1. Headquarters records indicate that Project LEHOG was terminated 30 June 1965 as reported by reference B. WILSTED and HV-2539 were both transferred to Project LIFEAT. An amended TVA was forwarded to the Station by TH #0561324, dated 9 July 1965.

2. The establishment of a transportation allowance is predicated on a reduction in the number of Organization vehicles and a savings to ODUOKS. Considering vehicle depreciation over a period of several years and charges for gas, oil and maintenance, it is deemed economical for ODUOKS to pay the transportation allowance of \$50.00 per month. The availability of a POV, which is intended primarily for personal transportation and used only incidentally for official use, makes it advantageous for the employee to receive a transportation allowance.

3. In the case at hand it is noted that 90% usage of a vehicle by WILSTED, representing 1500 miles per month and a proposed \$80.00 per month transportation allowance, is for official business. Since the vehicle is used almost exclusively and very extensively for official use, it seems more appropriate, as well as to the advantage of OLYMPIA and WILSTED, that it should be an official vehicle.

4. Headquarters appreciates Station's desire to reduce the number of QP vehicles. However, each case must be decided on the basis of the circumstances involved and, particularly, OBYCME interest. We request that the Station reconsider this case before we submit it to higher authority for approval.

SUBJECT	Chief of Station, Mexico City		MICROFILM
ACTION REQUIRED - REFERENCES	Transportation Allowance for David W. WILSTED Against the LPYC Project-TVA		
REFERENCE:	A. MP 45-3F(1) B. MI 23-5A(2)		

1. Authority is requested to pay David W. WILSTED a transportation allowance of \$20.00 per month for the use of a P.O.V. for official business. It is planned to dispose of MV-2539, a 1962 Chevrolet Biscayne 4 door sedan that has been driven for approximately 50,000 miles in favor of a transportation allowance for WILSTED. The vehicle has been used for a total of 30 months with mileage averaging 1,665 miles per month, 90% of which was official business travel.

2. The recommended transportation allowance is based on costs computed as follows:

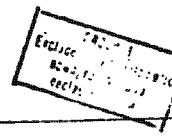

a. Gasoline:	\$ 31.94
1498 miles per month (1665 miles per month less 10% personal mileage) @ 15 miles per gal. 99.8 gallons @ \$.32.	
b. Insurance:	16.13
Approximately \$215.00 per year; less 10% for personal use (193.50 ÷ 12)	
c. Maintenance:	5.80
Tire repairs, lubrication, oil change, washing, battery & tire replacement, estimated at \$6.00 per month less 10% for personal use.	
d. Depreciations:	36.00
Estimated Cost.....\$ 3,200 Value after 30 months.. 2,000 Depreciation..... 1,200 Less 10% (1000 ÷ 30)

Part 2		SECRET	SECRET-9205
<p>3. In a progressive and progressive spirit, the cost of ordinary or extraordinary Maintenance, although insurance costs are relatively high in Mexico City, but rather the great number of miles traveled by Mr. GUY every month in connection with UNAM and cover certain figures. If UNAM were to be settled on a mileage basis at rate of 1000 miles per cylinder vehicle, he could be paid approximately \$144.00 per month based on past mileage. UNAM will come to an \$18.00 a month allowance in lieu of the mileage rate with the understanding that a periodic review of use and costs will be made, with resultant adjustments of the allowance if necessary.</p> <p>4. Since GUY will have to purchase his car in Mexico because of his sever disability, he will have to pay an estimated \$100 more than the factory recommended retail price, approximately \$3,200 for the 1965 Ford Falcon, 4 door sedan he plans to purchase. It is requested that Headquarters advise in regard to the factory recommended retail price as of August or September in 1964, on the above described vehicle, equipped with white side wall tires and radio, to facilitate the computation of the UNAM contribution to offset the higher cost of the vehicle in Mexico. This amount less the proportionate depreciation will be recoverable at the time the vehicle is disposed of.</p> <p>5. Considering the amount recoverable upon the disposal of the vehicle, the cost to GUY will be the case or less than the cost of shipping a PW to an overseas post, and will therefore be comparable to the costs of many staff employees overseas who use their PW's for official business.</p>

1 June 1965

MEMORANDUM FOR: Chief of Station, Mexico City

FROM : Andrew S. PARMERS
SUBJECT : Completion of Training Report on
David M. WILSTED

1. In a Mexico City Station Safesite, Subject received training on a part time basis from 17 through 27 May 1967. The instructor was Andrew S. PARMERS (known to trainee as Pablo ZELAYA) from KUROAE, Headquarters. Subjects covered were clandestine communications, operational security, Soviet Bloc intelligence activities, and operational reporting.
2. As a student, Subject was cooperative, participated with enthusiasm, and performed all requirements well. Although he has had very little previous formal training, he has had much practical experience and assimilates theory rapidly.
3. As a person, Subject is mature, calm, friendly, has a sense of humor, practical, a doer rather than a thinker, aggressive, and confident. He has broad area knowledge, is satisfied with his cover employment and with his KUBARK employment. He has no complaints and showed good emotional stability. He likes Mexico and Mexicans, and speaks excellent Spanish.
4. He has a very limited knowledge of KUBARK functions and organization, but he considers himself to be a careerist in this organization.

REFERENCE(S)			

1. Enclosed is a clipping advertising a UNIBATH developer, one step photo developing solution, that replaces the three separate solutions now used by the operational darkroom technician who processes the take from the LIMERICK basehouses.
2. We now have a time lag of one to two weeks in receiving the take from these basehouses. Most of this time lag is caused by the lengthy developing process in use. If there is anything to the UNIBATH developer, its use in our outside darkroom would be a decidedly worthwhile investment. Inquiries at the local photographic stores revealed that they had never heard of this product. It is requested that a sample of this developer be sent to the Mexico Station, marked For Quinton OUSL E2 so that it will reach the proper basehouse processor. If it proves successful, arrangements will be made through a local firm to place an order for the quantity necessary to meet the operational requirements.

ATTACHMENT TO HEM-A

The World's Only Correspondence Course in Wire Tapping

A complete course in Grooming and Photographic Surveillance. Completely illustrated with photographs, diagrams, and schematics. This course, written for professional detectives, presents many new techniques in Wire Tapping and Bugging. A selling introduction to the art of wire tapping is given in the first lesson. Each lesson is covered with a action story example showing the practical use of the material of that lesson. Purpose and questions are given. A certificate of completion is awarded.

The following is an outline of the course:

LESSON I. "Wire Tapping"	LESSON III. "Micro & Radio Photography"
The Bird Tap	Microphotography
Wireless Wire Tapping	Radio Photography
Fiction "Tom Makes a Tap"	Telescopc Photography
LESSON II. "Bugging"	LESSON IV. "Telescopc Photography"
Wire Bugs	Serial Photography
Wireless Bugs	Telescopc Photography
Directional Microphones	Geomatics, Landscapes of Aerial Photography
Recording Equipment and Techniques	Photography
Fiction "All Hell Breaks Loose"	Fiction "Tom Spies An Oil Riser"
LESSON V. "Tailing"	
The Wireless Tail	
Radio Direction Finders	
Fiction "The Leader (or Artist)"	

The FULL COURSE just \$22.50, Complete.

REFS: A: **21 January 1958**
B: **4 February 1958**
C: **5 February 1958**
D: **7 February 1958**

ACTIONS REQUESTED: Destroy or return all copies of the attachment to reference A to Headquarters.

In view of references B and D, it is requested that the copy, or copies, of the attachment to reference A be destroyed by the Station or returned to Headquarters. If destroyed by the Station, please advise Headquarters by dispatch as to the date of destruction. This procedure is necessitated to insure the security of the device should LURION later use the bookcase in another area.

- Personnel for 24/7 reporting

8 FEB 1959

REF ID: A64-9069, 31 December 1957

ACTION REQUESTED: None, for information only.

1. The Station's request for the assignment of either a P/S or P/T clerk-typist experienced in R/T/CP reporting has been discussed with the SM Division. Both the SM and CH divisions recognize the station's need for such an individual; however, it is at this time impossible to acquire an additional slot for the PCS assignment of an employee and it is not believed feasible to assign individuals on an extended C/T basis.

2. Although the rotational field training program suggested by the Station would appear initially to be an excellent way to relieve the referenced problem, Headquarters believes that the long-run effect would not achieve the desired results. This opinion is based primarily on the lack of qualified Headquarters employees available for such a rotation. Also significant is the fact that a rotation of this type will have to provide a slot for the 1st employee, thereby reducing the total slots normally available to treat officer - a troublesome problem under the present personnel ceiling.

3. The SM division has suggested that they would be glad to provide R/T/CP training to the next competent lady employee scheduled for PCS assignment to the Station. This, of course, would not increase the Station's C/T; it would only transfer an employee from one station job to another. Should you have any desires along this line, please advise Headquarters.

3 Feb 58

REF ID: A6429X9, 21 December 1957

ATTACH INFORMATION: None, for information only.

1. The Station's request for the assignment of either a PA or TTY clerk-typist experienced in M-12 reporting has been discussed with the WH Division. Both the WH and AD Divisions recognize the Station's need for such an individual; however, it is at this time impossible to assign 1/8 an additional slot for the PA assignment of an employee and it is not believed feasible to assign individuals on an extended TTY basis.

2. Although the rotational field training program suggested by the Station would appear initially to be an excellent way to relieve the referenced problem, Headquarters believes that the long-term effect would not achieve the desired results. The main obstacle primarily is the lack of a sufficient number of courses in the various field assignments. Also of concern is the fact that a very limited number of slots are available in the WH Division, thereby reducing by one the total slots normally available to that office - a troublesome problem under the present personnel ceiling.

3. The WH Division has suggested that they would be glad to provide M-12 reporting to the most competent lady employee established for M-12 assignment to the stations. This, of course, would not increase the Station's TTY; it would only transfer an employee from one station job to another. Should you have any desires along this line, please advise Headquarters.

SUBJECT
GENERAL - Operational/LI/EAT Support
SPECIFIC - Concealment Device for Use by Daniel E. BROWNE
(201-210541)

1. In answer to a special request by Daniel E. BROWNE and approved by the WH Division, KRIOT has constructed a bookcase containing a concealment area for his use in connection with the LI/EAT Project. This bookcase is now being packed for shipment. The Station will be advised later of the method of shipment and the ETA. Instructions for its use are u/s/c. If the Station has no objection to its use by BROWNE it is requested that it be delivered to him.

2. If the Station believes that additional similar concealment devices would be of use under LI/EAT Project, it is requested that you forward to Headquarters your suggestions and comments, furnishing details as to quantity, size and prospective use. Your request will then be referred to KRIOT.

MEMORANDUM FOR: WH/Logistics

SUBJECT : Purchase of Metal Storage Cans and Deluxe Carrying Cases

1. The [redacted] desk has received an oral request from the field for metal cases to replace the cardboard boxes which are now used for [redacted] the LIFEAT Project. The cardboard boxes used [redacted] cut in a very short time because of the frequent handling which they receive at the Station.

2. It is requested that you purchase and ship to the [redacted] Station, the following items which can be purchased from LAFAYETTE RADIO, 165-08 Liberty Avenue, Jamaica 33, New York (seen in catalog 305):

100 Metal Storage Cans for 7" 1200 foot reels \$.39 each (in lots of 6)

3 Deluxe Carrying Cases - hold 35 reels in case \$5.40 each

3. The costs of the above items should be charged to Project LIFEAT.

FROM Chief of Station
SUBJECT: GENERAL— Operational/LIFEAT
SPECIFIC— SuppliesDATE: 7 August 1957

It is requested that the following supplies for LIFEAT be forwarded to this Station:

- a. 100 Shaeffer ball point pen refills for Panacoustic dial recorders;
- b. 50 rolls Scotch mending tape for magnetic recording tapes;
- c. 100 rolls paper for Panacoustic dial recorders;
- and d. Six Amplicorp Model 200C Degaussers. It is planned that one Degausser will be placed at each LIFEAT base for emergency purposes.

- LIST

- Serialize: Mexico City Telephone Directory

Reference: TWA-7337, 3 July 1957 (304-12/3)

1. Reference requested serialization of the Mexico City telephone directory by street address. The matter was discussed with the Headquarters units concerned with this type of work. Due to the time required to complete this job and because of the existing heavy work load, they are unable to undertake this requirement. The requirement could be filled by another government agency after the directory was reduced to abstracts based on a numerical coding system. The outside agency would then punch the coded addresses and indices onto cards at a cost of \$75 per thousand or \$6,250 for 110,000 addresses. A full time person with a knowledge of Spanish would have to be assigned by WHD for this work.
2. The major part of the job would be the first step—the coding—which I estimate would require a person's full time for eight to ten months. The second step—the key punching—will take about two months. The third step—a machine listing—would be a fairly rapid process.
3. Because of the cost and the shortage of personnel, Headquarters regrets that it is unable to undertake the serialization job at this time.

SPECIFIC— Request for Vacuum Tubes

ACTION REQUESTED: Pouching of Vacuum Tubes

1. It is requested that the following vacuum tubes be pouched to this Station:

50 AU 6
50 6X6
50 6X5
50 6J5

2. Whereas at times these tubes, or some of them, can be purchased locally, the local market often deals in "seconds" which are unsatisfactory for our work.
